

Derelict park features

5) Playpark

The play features are old. Many are broken or have been partially removed as they are now unsafe. All are sited on a hard surface. Few parents with young children ever use this area of the park now, which is often frequented by groups of local teenagers behaving anti-socially. Local residents have lobbied for new and more stimulating play equipment, ideally in two adjacent areas - one for toddlers and another for older children.

- Estimated cost: £40,000 - £100,000 depending upon amount of equipment, ground surface materials and enclosing fences.
- Estimated cost of seating and picnic benches: £4,000.
