

Park keeper

Park keeper

You have a lifelong interest in plants and started work for the parks and gardens team three years ago when there was a plan to develop the park.

Unfortunately, the plans amounted to nothing and you have seen even further decline, including a reduction in staff.

As you spend so much of your time in the park you are familiar with the many problems associated with its upkeep and the antisocial behaviour of different groups.

Before the meeting, think about:

- Which areas you would like see repaired or reinstated?
- What new developments you would like to see?
- What issues are involved in maintaining the park?
