

Fundraiser for local wildlife organisation

Fundraiser for local wildlife organisation

You are passionate about wildlife and work in a voluntary capacity as fundraiser for a local wildlife trust.

You feel that the park's restoration offers many potential educational opportunities for young and old alike.

Before the meeting, think about:

- How you would protect the different species that currently live in the park?
- How to educate visitors about the importance of the park as habitats for a diverse range of wildlife?
- How you would encourage visitors to support wildlife fundraising campaigns?
- How you would involve members of the community in protecting local wildlife?
